Subject: Product Selections to the Short Term Options Series Program

Effective November 6, 2014, the ISE and ISE Gemini will introduce Short Term Options Series (“Weeklies”) in Direxion Daily Junior Gold Miner (JNUG). As part of the program, ISE and ISE Gemini can offer Weeklies on up to fifty (50) options classes per exchange, as well as trade any selections offered by other exchanges operating a similar program (assuming the standard option is listed on ISE and ISE Gemini).

In the summer of 2014, ISE and ISE Gemini introduced ten new symbols, with a majority eligible for five consecutive Weeklies. A full list of ISE and ISE Gemini selections in the Short Term Options Series program is available at <http://www.ise.com/options/products-traded/>.
