Information on the Notes

Morgan Stanley (the "Issuer") has issued Performance Leveraged Upside Securities ("PLUS") based on the performance of the S&P 500 Index (the "Index"). The PLUS were priced at \$10 each and mature on June 20, 2009.

As more fully set forth in the Prospectus Supplement, the PLUS will automatically redeem for cash based on the performance of the Index at maturity. The PLUS are not principal protected and will not be redeemable by the investor or issuer prior to maturity.

At Maturity, if the Final Index Value is greater than the Initial Index Value, investors will receive:

$$\$10 + (\$10 \times 300\% \times \text{Index Percent Increase})$$

Subject to a maximum payment at maturity of \$11.70 per PLUS.

The Index Percent Increase equals:

$$\frac{\text{Final Index Value} - \text{Initial Index Value}}{\text{Initial Index Value}}$$

If the Final Index Value is less than or equal to the Initial Index Value, investors will receive:

$$\$10 \times (\text{Final Index Value} / \text{Initial Index Value})$$

The Initial Index Value of the Index is 1,394.35. The Final Index Value is the closing value of the Index on June 18, 2009.

Please see the prospectus for the PLUS for more details regarding the calculations.

It is expected that the market value of the PLUS will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yield of the stocks comprising the Index, and the credit ratings of the Issuer.
