In June 2013, NASDAQ OMX® acquired eSpeed - an established electronic platform for trading U.S. Treasury Securities, including 2YR, 3YR, 5YR, 7YR, 10YR and 30YR “On the Run” Benchmarks.

Customers can benefit directly from NASDAQ OMX’s proven expertise in Market Technology and operational excellence in U.S. marketplaces - combined with eSpeed’s pioneering work in the electronic execution of U.S. Treasury Securities trading.

**FUNCTIONALITY**

- Central Limit Order Book matches customer orders on a Price/Time priority basis for fair and equal market access
- FIFO market with no “work up”
- Supports global market trading hours, open 22-23 hours per day
- Sophisticated risk management tools, which includes pre and post trade risk controls
- 100% anonymous market

**CONNECTIVITY AND ORDER EXECUTION**

- Several methods of order execution available to support a variety of trading
  - Direct FIX 4.4 - The industry standard in connectivity
  - Native API
  - Third party vendors
- Straight-through processing through FIX or API
- Ultra low latency connectivity through Co-Location
- Real-time multicast market data
PREFERRED VENDORS AND CONNECTIVITY PROVIDERS

In an effort to provide a broad range of world-class technology options for reaching our market, we work with a number of leading global network providers and independent software vendors (‘vendors’ or ‘ISVs’) through the NASDAQ OMX eSpeed Preferred Vendor Program.

Our Preferred Vendors connect directly to NASDAQ OMX eSpeed’s proprietary trading platform, thereby offering their customers fast access to U.S. Treasuries and other fixed income products as they are introduced. In addition, we have several providers that offer third party access to eSpeed for order execution and market data.
