NASDAQ OMX ESPEED SNAPSHOT

NASDAQ OMX® is the market’s benchmark source for fixed income pricing sourced directly from NASDAQ OMX’s eSpeed trading systems. NASDAQ OMX now offers eSpeed Snapshot, the end-of-day pricing product for U.S. Treasuries.

eSpeed has been delivering its benchmark information to leading financial institutions and commercial mortgage banks for 30 years. Now NASDAQ OMX eSpeed’s U.S. Treasury pricing is available as a comprehensive, accurate, end-of-day product.

When managing risk, pricing a portfolio and calculating mortgage rates it is important to have access to the most accurate prices in the marketplace. eSpeed Snapshot end-of-day pricing provides dependability and accuracy.

ESPEED SNAPSHOT END-OF-DAY SERVICE FOR U.S. TREASURY SECURITIES PROVIDES:

- 3 P.M., 4 P.M. and 5 P.M. E.T. reports on all U.S. Treasury Issues delivered via FTP
- Key Pricing Data with market summary information such as Last Trade Price, Aggregated Volume, Bid/Ask Price and Yield, VWAP and VWAY
- Reference Data content that includes CUSIP, Coupon, Maturity Date, and Issue Date
- Analytic Data such as Modified Duration and Convexity
