If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e., partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.
1. **Text of the Proposed Rule Change**

The Philadelphia Stock Exchange, Inc. (“Phlx” or “Exchange”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)\(^1\) and Rule 19b-4 thereunder,\(^2\) proposes to amend Exchange Rule 507, Application for Assignment in Streaming Quote Options, by adopting new Commentary .01 to the rule, which would authorize the Exchange’s Options Allocation, Evaluation and Securities Committee (“OAESC”),\(^3\) to assign trading privileges in options to Streaming Quote Traders (“SQTs”)\(^4\) and Remote Streaming Quote Traders (“RSQTs”),\(^5\) by “root symbol” (as defined more fully below), such that an SQT or RSQT may be assigned in only certain series of an option.

A notice of the proposed rule change for publication in the Federal Register is attached hereto as Exhibit 1. The text of the proposed rule change is set forth below.

---

\(^3\) The OAESC is a standing committee of the Exchange that has jurisdiction over the allocation, retention and transfer of the privileges to deal in all options to, by and among members on the options and foreign currency options trading floors. It is responsible for appointing specialists, alternate or assistant specialists or odd-lot dealers on the options and foreign currency options trading floors. It also establishes standards for the periodic review and evaluation of their performance and is empowered to suspend or revoke their appointments upon showing of reasonable cause therefor. See Exchange By-Law Article X, Section 10-7(a). See also, Exchange Rule 500.

\(^4\) An SQT is an Exchange Registered Options Trader (“ROT”) who has received permission from the Exchange to generate and submit option quotations electronically through AUTOM in eligible options to which such SQT is assigned. An SQT may only submit such quotations while such SQT is physically present on the floor of the Exchange. See Exchange Rule 1014(b)(ii)(A).

\(^5\) An RSQT is an ROT that is a member or member organization with no physical trading floor presence who has received permission from the Exchange to generate and submit option quotations electronically through AUTOM in eligible options to which such RSQT has been assigned. An RSQT may only submit such quotations electronically from off the floor of the Exchange. See Exchange Rule 1014(b)(ii)(B).
Application for Assignment in Streaming Quote Options

Rule 507. (a) – (g) No change.

Commentary:

.01. An applicant may request assignment by “root symbol,” such that an SQT or RSQT may be assigned in only certain series of an option. A root symbol is the options trading mnemonic used for each option. The Exchange may apply different root symbols to series overlying the same underlying security depending, without limitation, on the strike price of the series, the expiration of the series, the price of the underlying security, and/or mergers and acquisitions relating to the underlying security.

2. Procedures of the Self-Regulatory Organization

The Exchange’s Executive Committee, pursuant to delegated authority, approved the proposal for filing with the Securities and Exchange Commission (“SEC” or “Commission”) on July 27, 2006.

Questions and comments on the proposed rule change may be directed to Richard S. Rudolph, Vice President and Counsel, at (215) 496-5074, or Edith Hallahan, Senior Vice President and Deputy General Counsel, at (215) 496-5179.

3. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The purpose of the proposed rule change is to mitigate quote traffic and address quote capacity issues by reducing the number of quotations required to be submitted on the Exchange. The proposal would permit the OAESC to assign trading privileges to SQTs and RSQTs, upon their request, only in specific series of a particular option based on the “root symbol” of the series, instead of assigning trading privileges in all series of
such option. Thus, as described below, SQTs and RSQTs would be required to submit quotations in fewer series.

**Current Assignment Rule**

Rule 507 currently provides the solicitation, application and review process to be followed by the OAESC when an SQT or RSQT submits an application for assignment in an option. Under Rule 507, an application for assignment must be submitted in writing to the Exchange's designated staff and would be required to include, at a minimum, the name of the SQT or RSQT applicant and written verification from the Exchange’s Membership Services Department that such SQT or RSQT applicant is qualified as a ROT. In addition, the OAESC may consider the impact of the number of SQT applicants in the Streaming Quote Option on the Exchange’s quotation system capacity.

In order to ensure an SQT applicant’s technological readiness to submit electronic quotes, proposed Commentary .01 would mandate that no application for assignment in Streaming Quote Options would be approved by the OAESC without written certification signed by an officer (Vice President or above) of the Exchange’s Financial Automation Department indicating that the SQT applicant has sufficient technological ability to support his/her continuous quoting requirements as set forth in Rule 1014(b)(ii), and the SQT applicant has successfully completed, or is scheduled to complete, testing of its quoting system with the Exchange.

---

6 The Exchange’s Financial Automation Department is responsible for the design, development, implementation, testing and maintenance of the Exchange’s automated trading systems, surveillance systems, and back office systems, and for monitoring the quality of performance and operational readiness of such systems, in addition to user training and validation of user technology as it pertains to such users’ interface with the Exchange’s systems.
SQT and RSQT Quoting Requirements

Currently, an SQT or RSQT that does not receive Directed Orders\(^7\) in a Streaming Quote Option\(^8\) is responsible to quote continuous, two-sided markets in not less than 60% of the series in each Streaming Quote Option in which such SQT or RSQT is assigned.\(^9\)

On any given day, an SQT or RSQT that receives Directed Orders (“DSQT” or “DRSQ&T” respectively), is responsible to quote continuous, two-sided markets in not less than 99% of the series listed on the Exchange in at least 60% of the options in which such DSQT or DRSQT is assigned. Whenever a DSQT or DRSQT enters a quotation in an option in which such DSQT or DRSQT is assigned, such DSQT or DRSQT must maintain continuous quotations for not less than 99% of the series of the option listed on the Exchange until the close of that trading day.\(^10\)

The Proposal

Exchange proposes to permit SQT and RSQT applicants to request assignment in an option by “root symbol.” Today, all assignments are by overlying option, meaning the SQT and RSQT applicants that are assigned in a particular option are assigned in all series of such option. Therefore, the calculation of the percentage of series required to be

---

\(^7\) The term “Directed Order” means any customer order (other than a stop or stop-limit order as defined in Rule 1066) to buy or sell which has been directed to a particular specialist, RSQT, or SQT by an Order Flow Provider. See Exchange Rule 1080(l)(1)(A).

\(^8\) A Streaming Quote Option is an option in which SQTs may generate and submit option quotations if such SQT is physically present on the Exchange floor, and RSQTs may generate and submit option quotations from off the floor of the Exchange, electronically. See Exchange Rule 1080(k). Currently, all options trading on the Exchange are Streaming Quote options.

\(^9\) See Exchange Rule 1014(b)(ii)(D)(1).

\(^10\) Id.
quoted is based on every series listed in such option, thus requiring SQTs and RSQTs to quote most series.

Root symbols are the basic symbols used to identify an option, such as, for example, “ABQ” for options on fictitious “ABC Corporation.” The various series of options on ABC Corporation are identified with two additional symbols reflecting the expiration month and the strike price, which also indicate whether it is a put or call option. ABC Corporation may have different root symbols other than ABQ because of the number of strike prices (there are not enough letters in the alphabet to capture all potential strike prices), the expiration months available, and whether any mergers or acquisitions have occurred. Thus an option on the Exchange overlying a single underlying security could have several different root symbols.

If options can be assigned by root symbol, SQTs and RSQTs may more carefully tailor their requests to the specific roots in which they are interested, which should encourage quality quoting. Often, SQTs and RSQTs submit quotes with bid/ask differentials as wide as the Exchange’s rules permit in series that they have no interest in quoting. The effect of this is that, in order to meet their quoting continuity requirements, SQTs and RSQTs submit continuous quotations that are not at or even near the best bid or offer on the Exchange, nor the National Best Bid or Offer (“NBBO”). Such quotations result in unnecessary quote traffic on the Exchange’s, often causing issues of concern respecting quote capacity. This proposal should reduce the number of

The $5 bid/ask differentials only apply to Streaming Quote Options trading on Phlx XL and only following the opening rotation in each security. See Exchange Rule 1014(c)(i)(A)(2).
series assigned to SQTs and RSQTs by the OAESC, and consequently reduce the number of quotes submitted by SQTs and RSQTs.

b. **Statutory Basis**

The Exchange believes that its proposal is consistent with Section 6(b) of the Act\(^{12}\) in general, and furthers the objectives of Section 6(b)(5) of the Act\(^{13}\) in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest, by reducing the number of options quotations required to be submitted, which should enable the Exchange to mitigate quote traffic and capacity.

4. **Self-Regulatory Organization’s Statement on Burden on Competition**

The Phlx does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

5. **Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others**

No written comments were either solicited or received.

6. **Extension of Time Period for Commission Action**

The Exchange does not consent to an extension of the time period for Commission action.

\(^{13}\) 15 U.S.C. 78f(b)(5).
7. **Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)**

The Exchange requests accelerated effectiveness pursuant to Section 19(b)(2) of the Act\(^{14}\) in order to expedite the mitigation of quote traffic and capacity.

8. **Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or of the Commission**

The proposed rule change is not based on the rules of another self-regulatory organization or of the Commission.

(Release No.                  ; File No. SR-Phlx-2006-53)

Self-Regulatory Organizations; Notice of Filing and Accelerated Approval of Proposed Rule Change by the Philadelphia Stock Exchange, Inc. Relating to Assignments in Options

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”) 1, and Rule 19b-4 2 thereunder, notice is hereby given that on ______________________ 2006, the Philadelphia Stock Exchange, Inc. ("Phlx" or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Phlx. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Phlx, pursuant to Section 19(b)(1) of the Act 3 and Rule 19b-4 thereunder, 4 proposes to amend Exchange Rule 507, Application for Assignment in Streaming Quote Options, by adopting new Commentary .01 to the rule, which would authorize the Exchange’s Options Allocation, Evaluation and Securities Committee (“OAESC”), 5 to

II. \textbf{Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change}

In its filing with the Commission, the Phlx included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Phlx has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to mitigate quote traffic and address quote capacity issues by reducing the number of quotations required to be submitted on the Exchange. The proposal would permit the OAESC to assign trading privileges to SQTs and RSQTs, upon their request, only in specific series of a particular option based on the “root symbol” of the series, instead of assigning trading privileges in all series of such option.
