Information on the Notes

Citigroup Funding Inc. (the “Issuer”) has issued 9.00% Equity-Linked Securities ("ELKS") based upon the common stock of Exxon Mobil Corp. (the “Exxon”). The ELKS were priced at $10 each and mature on August 18, 2008.

As more fully set forth in the Prospectus Supplement, ELKS are equity-linked investments that offer current income as well as limited protection against the decline in the price of Exxon common stock. ELKS are not principal protected. The ELKS will pay a semi-annual coupon of 9% per annum.

At maturity, investors will receive for each ELKS:

i) 0.11377 shares of Exxon common stock, if Exxon common stock trades at a price equal to or below $70.32 from issuance to and including the Valuation Date on August 13, 2008; or

ii) $10.00 per ELKS.

Investors should note that Exxon is not involved in the subject offering and has no obligation with respect to these securities whatsoever, including any obligations with respect to the principal amount to be paid at maturity, or to take the needs of the Issuer or holders of ELKS into consideration. Any dividends or distributions to Exxon common stock shareholders will not be paid to holders of ELKS. The ELKS are a series of unsecured debt issued by Citigroup Funding Inc. and will be issued in book entry form.

Since all payments which may be due to holders of ELKS are the sole responsibility of the Issuer, it is the credit of Citigroup Funding Inc., and not Exxon, which stands behind the ELKS.

Prior to receiving Exxon shares at maturity, investors in ELKS will not be entitled to any rights with respect to the underlying common stock shares, including: voting rights, the rights to
receive dividends or other distributions in respect thereof and the right to tender or exchange
the underlying common stock shares in any partial tender or exchange offer by Exxon.

It is expected that the market value of the ELKS will depend substantially on the value of
Exxon common stock and be affected by a number of other interrelated factors including,
among other things; the general level of interest rates, the volatility of Exxon common stock,
the time remaining to maturity, the dividend yield of Exxon common stock, and the credit
ratings of the Issuer.

The Trustee for the securities is The Bank of New York.
