Linked to the MSCI EAFE Index

Information on the Notes

Merrill Lynch & Co., Inc. (the "Issuer") has issued Accelerated Return Notes (the "Notes") linked to the MSCI EAFE Index (the "Index"). The Notes were priced at $10 each and will mature on December 4, 2008.

As more fully set forth in the Prospectus Supplement, each $10 principal amount of the Notes will be deemed a “Unit” for purposes of trading and transfer. There will be no payments or redemptions prior to the maturity date.

The Notes provide full exposure to any downside movement in the Index and triple exposure to any upside movement in the Index, subject to a maximum payment at maturity of $11.6275 per unit.

At maturity, holders of the Notes will receive:

(1) If the Ending Value is less than or equal to the Starting Value, the investor receives:

\[10 \times \frac{\text{Ending Value}}{\text{Starting Value}}; \text{ or}\]

(2) If the Ending Value is greater than the Starting Value, the investor will receive:

\[10 + [30 \times \left(\frac{\text{Ending Value} - \text{Starting Value}}{\text{Starting Value}}\right)]\]

The payment is subject to a maximum total payment of $11.6275 per unit.

The Starting Value for the Index is 2,288.25. The Ending Value for the Index will be determined shortly before the December 4, 2008 maturity date for the Notes. Investors should consult the Prospectus for the Notes for more details.
Investors should be aware that an investment in the Notes may result in a loss of principal and the maximum payment on the Notes is capped, which limits investors’ return potential. Investors will have exposure to the Index but will not receive dividends or other benefits of owning the underlying securities.

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yields of the securities comprising the Index, and the credit ratings of the Issuer.

The Trustee for the securities is The Bank of New York.

Trading in the Notes on NASDAQ is on a UTP basis and is subject to NASDAQ equity trading rules. The Notes will trade from 7:00 a.m. until 8:00 p.m. Eastern Time.

Trading of the Notes on NASDAQ is subject to the provisions of NASDAQ Rule 2310. Members recommending transactions in the Notes to customers should make a determination that the recommendation is suitable for the customer. In addition, members must possess sufficient information to satisfy the “know your customer” obligation that is embedded in the NASDAQ Conduct Rules.

Members also should review FINRA Notice to Members 03-71 for guidance on trading these products. The Notice reminds members of their obligations to: (1) conduct adequate due diligence to understand the features of the product; (2) perform a reasonable-basis suitability analysis; (3) perform customer-specific suitability analysis in connection with any recommended transactions; (4) provide a balanced disclosure of both the risks and rewards associated with the particular product, especially when selling to retail investors; (5) implement appropriate internal controls; and (6) train registered persons regarding the features, risk and suitability of these products.

This Information Circular is not a statutory prospectus. NASDAQ members should consult the registration statement or prospectus for the Notes for additional information.
