Information on the Notes

Merrill Lynch & Co., Inc. (the “Issuer”) has issued Accelerated Return Notes ("Notes") linked to the MSCI EAFE Index (the “Index”). The Notes were priced at $10 each and mature on February 06, 2009. The Notes are not principal protected.

As more fully set forth in the Prospectus Supplement, each $10 principal amount of the securities will be deemed a “Unit” for purposes of trading and transfer. There will be no payments or redemptions prior to the maturity date.

At maturity, the Notes will provide full exposure to any downside movement in the MSCI EAFE Index and will provide triple exposure to any upside movement in the MSCI EAFE Index, subject to a maximum payment at maturity of $11.995 per unit.

(1) If the Ending Value is less than or equal to the Starting Value, the investor receives:

$10 x (Ending Value/Starting Value); or

(2) If the Ending Value is greater than the Starting Value, the investor will receive:

$10 + $30 x ((Ending Value – Starting Value)/Starting Value),

subject to a maximum total payment at maturity of $11.995 per unit

The Starting Value for the MSCI EAFE Index is 2,293.59.

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to
maturity, the dividend yield of the stocks comprising the Index, and the credit ratings of the Issuer.

The Trustee for the securities is The Bank of New York.
