Information on the Notes

Citigroup Funding Inc. (the “Issuer”) has issued 8.5% Equity-Linked Securities (“ELKS”) based upon the common stock of Exxon Mobil Corporation (“Exxon”). The ELKS were priced at $10 each and mature on March 25, 2009.

ELKS are equity-linked investments that offer current income as well as limited protection against the decline in the price of the common stock of Exxon and are not principal protected. The ELKS will pay a semi-annual coupon of 8.5% per annum.

At maturity, investors will receive:

(i) 0.11488 shares of Exxon common stock, if Exxon stock trades at a price equal to or below $67.46 from the pricing date to and including the valuation date on March 20, 2009; or

(ii) $10.00 per ELKS.

It is expected that the market value of the ELKS will depend substantially on the value of Exxon and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of Exxon stock, the time remaining to maturity, the dividend yield of Exxon stock, and the credit ratings of the Issuer.

Since all payments which may be due to holders of ELKS are the sole responsibility of the Issuer, it is the credit of Citigroup Funding Inc., and not Exxon, which stands the ELKS.

Investors will not be entitled to any rights with respect to the underlying common stock shares until such shares are distributed to holders of ELKS at maturity, if applicable.

Trading in the ELKS on NASDAQ is on a UTP basis and is subject to NASDAQ equity trading rules. The ELKS will trade from 7:00 a.m. until 8:00 p.m. Eastern Time. Additional risks may exist with respect to trading the ELKS during Nasdaq’s Pre-Market and Post-Market sessions.

Members recommending transactions in the ELKS to customers should make a determination that the recommendation is suitable for the customer.
