### Information on the Notes

Merrill Lynch & Co., Inc. (the "Issuer") has issued 12% Callable Stock Return Income Debt Securities ("STRIDES") linked to the common stock of Monsanto Company ("Monsanto"). The STRIDES were priced at \$25 each and mature on March 26, 2010.

The STRIDES pay a coupon of 12% per annum, paid quarterly on the 26th of each March, June, September, and December.

At maturity, if the Notes have not been previously called, investors will receive a number of shares of Monsanto common stock equal to the then current share multiplier. The STRIDES are callable beginning March 27, 2009 up until the maturity date. The yield to call on the STRIDES is 21.3%. The calculation of the yield to call takes into account the issue price of the STRIDES, the time to the call date, and the coupon payments of the STRIDES, as well as the call price. If the Issuer calls the STRIDES during the call period, the call price will be an amount so that the yield to call on the STRIDES to but excluding the call date will be 21.3% per annum.

If on any date the closing market price of Monsanto is less than \$1.00, the STRIDES will be redeemed on the third business day following such a date and will deliver a number of shares of Monsanto equal to the then current share multiplier plus the accrued and unpaid interest to the redemption date and the present value of the remaining coupon payments.

It is expected that the market value of the STRIDES will depend substantially on the value of Monsanto and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of Monsanto stock, the time remaining to maturity, the dividend yield of Monsanto stock, and the credit ratings of the Issuer.

The Trustee for the securities is The Bank of New York.
