Information on the Notes

Citigroup Funding Inc. (the “Issuer”) has issued Index LeAding Stock markEt Return Securities ("LASERS" or the "Notes") based upon the S&P 500 Index (the “Index”). The Notes were priced at $10 each and mature in 2012.

The LASERS are for investors seeking a medium-term equity-linked investment offering exposure to the S&P 500 Index and contingent downside protection of 40%.

At maturity, for each $10 LASERS, investors will receive $10 plus:

(i) If the value of the Index is greater than 60% of its Starting Value at all times after the pricing date up to and including the valuation date (whether intra-day or at the close of trading on any index business day),

   $10 x (the greater of (a) Index Percentage Change and (b) Fixed Percentage)

(ii) If the value of the Index is less than or equal to 60% of its Starting Value at any time after the pricing date up to and including the valuation date (whether intra-day or at the close of trading on any index business day),

   $10 x (Index Percentage Change)

The Index Percentage Change is calculated as follows:

   Ending Value - Starting Value
   Starting Value

The Starting Value will be the closing value of the Index on the pricing date. The Ending Value will be the closing value of the Index on the valuation date.
Please see the prospectus for the Notes for more details regarding the calculations and details regarding the Index.

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yield of the stocks comprising the Index, and the credit ratings of the Issuer.
