Memo No.# 1497-08

August 7, 2008

To: Equity Option Members and Member Firms

Subject: Change to the Specialized Quote Feed (SQF)

The NASDAQ OMX PHLX will be implementing a change to the Specialized Quote Feed (SQF) interface in preparation for active trading in Complex Orders. The change addresses an issue in which the REPLACED BY field in a Complex Order Sweep Response message is not being right-justified and zero filled. It is anticipated that the change will have no impact to Member Firm production systems/connections, and the change **will not** require Member Firms to make any network and/or application changes. This notification is for informational purposes only.

The change will be phased in between August 11 and August 12. The following is the implementation schedule:

1st Deployment:

Live Date: Morning of August 11, 2008 for one SQF server

2nd Deployment:

Live Date: Morning of August 12, 2008 for the two additional SQF servers

Member Firms who experience any system problems and/or interruption in service on the above stated dates should immediately contact our trading floor System Support Group at 215-496-1571.

If you have any questions regarding this memorandum, you may contact Bill Terrell at 215-496-5205.

Sincerely,

CC: Sandy Frucher
