

SERIES ADJUSTMENT 1333-08

July 09, 2008

Southern Copper Corporation(PCU)

3 for 1 Stock Split

Ex-Distribution Date: 7/10/2008

In an effort to avoid rounding strike prices, The Securities Committee has decided to employ a new adjustment methodology. The contract adjustment described below utilizes the new method of contract adjustment wherein strike prices, number of contracts, and premium/strike multipliers are unchanged for certain kinds of stock splits and stock dividends. It is important that option investors be aware that it will be necessary to calculate the current market value of the adjusted option deliverable to correctly determine the option's in-the-money status.

Southern Copper Corporation(PCU) has declared a 3 for 1 stock split payable to shareholders of record on Monday, June 30, 2008. Distribution date for the stock split will be Thursday, July 10, 2008. **Ex-distribution date for the stock split will be Thursday, July 10, 2008.**

With this new method of adjustment, it is no longer possible to determine if an adjusted option is in- or out-of-the-money by simply comparing the stock price to the option strike price. When the new method is used, the stock price must always be adjusted by the appropriate factor(s) in order to correctly determine in-the-money amounts or premiums. Option investors must be aware of the number of shares (and possible cash amounts) in the deliverable and the fact that the multiplier used for premium and strike dollar extensions remains unchanged.
