

NASDAQ OMXSM

PHLX

Memo No.# 2076-08

William Terrell
Market Operations

December 15, 2008

To: Option Members and Member Firms

Subject: NASDAQ OMX –PHLX RMP field content change

Effective Tuesday December 16, 2009 the NASDASOMX-PHLX will populate the `fix_order_id` field for Complex Order sweeps with the Complex Order sweep ID in the RMP trades.

There will be no additional fields added to the current RMP specifications. However, the verbiage for the description will change in the next version of the RMP specifications to reflect the following:

fix_order_id description

From - FIX id assigned by the sending firm or exchange or spaces
To - FIX id **or Complex Sweep Id** assigned by the sending firm or exchange or spaces

trade_source description

From - G = Complex Order Legged against single orders
To - G = Complex Order Legged against single orders **or quotes**

Member Firms who experience any system problems and/or interruption in service on the above stated date should immediately contact our Trading Floor System Support Group at **215-496-1571**.

If you have any questions regarding this notification you may contact Michael DiOrio at 215-496-6789 or Shelly Brown at 215-496-5602.
