Subject: Morgan Stanley’s Capital Protected Notes

Information on the Notes

ISE today began trading Morgan Stanley’s Capital Protected Notes Based on the Value of an International Index Basket. 2.35 million shares of the new securities were issued at $10 per note and mature on February 20, 2011.

As more fully set forth in the Prospectus Supplement, the aforementioned security will pay no interest and are principal protected. At maturity, the Notes will pay the principal amount of $10 plus a supplemental redemption amount, if any, based on the increase, if any, in the value of a basket consisting of the Dow Jones EURO STOXX 50 Index, the S&P 500 Index, and the Nikkei 225 Index.

The Supplemental Redemption Amount equal:

\[ \text{Supplemental Redemption Amount} = 10 \times \text{Basket Percentage Change} \times \text{Participation Rate} \]

The Participation Rate: 100%

The Basket Percentage Change equals:

\[ \left( \frac{\text{Final Basket Value} - \text{Initial Basket Value}}{\text{Initial Basket Value}} \right) \]

Initial Basket Value: 10

The Initial Index closing values for the indices are as follows: the S&P 500 Index is 1,457.63, the Dow Jones Euro STOXX 50 Index is 4,241.48 and the Nikkei 225 Index is 18,108.79.

Since all payments, which may be due to holders of GBI, are the sole responsibility of the Issuer, it is the credit of Morgan Stanley that stands behind GBI.

There can be no assurances as to how the Capital Protected Notes will trade in the secondary market or whether such market will be liquid or illiquid. Trading in the shares on ISE is on a UTP basis and is subject to ISE equity trading rules. The shares will trade from 9:00 a.m. until 4:00 p.m. Eastern Time. Equity Electronic Access Members (“Equity EAMs”) trading the shares during the Pre-Market Session are exposed to the risk of the lack of the calculation or dissemination of underlying index value or intraday indicative value (“IIV”). For certain derivative securities products, an updated underlying index value or IIV may not be calculated or publicly disseminated in the Pre-Market hours. Since the underlying index value and IIV are not calculated or widely disseminated during Pre-Market hours, an investor who is unable to calculate implied values for certain derivative securities products during Pre-Market hours may be at a disadvantage to market professionals.

Equity EAMs also should review NASD Notice to Members 03-71 for guidance on trading these products. The Notice reminds members of their obligations to: (1) conduct adequate due diligence to understand the features of the product; (2) perform a reasonable-basis suitability analysis; (3) perform customer-specific suitability analysis in connection with any recommended transactions; (4) provide a balanced disclosure of both the risks and rewards associated with the particular product, especially when selling to retail investors; (5) implement appropriate internal controls; and (6) train registered persons regarding the features, risk and suitability of these products.

This Regulatory Information Circular is not a statutory Prospectus. Equity EAMs should consult the Trust’s Registration Statement, SAI, Prospectus and the Fund’s website for relevant information.
