Subject: Safety First Trust Series Principal-Protected Trust Certificates Linked to the Dow Jones Industrial Average

Background Information on the Security

Safety First Trust Series 2,364,000 Principal-Protected Trust Certificates ("Securities" or "Certificates") linked to the Dow Jones Industrial Average will have a $10 principal amount and have a maturity date of May 8, 2014. The Certificates are issued by Safety First Trust Series 2009-2 and guaranteed by the Creditworthiness of Citigroup Funding Inc.

At maturity for each Certificate, investors will receive the sum of (i) $10 plus, (ii) a Supplemental Distribution amount based on the percentage change of the Dow Jones Industrial Average during the term of the certificates (which may be positive or zero), calculated as follows:

(1) If the Final Basket level is greater than the Initial Basket Level, the Supplemental Distribution amount will equal the product of (i) $10.00, (ii) the Index Return Percentage.

(2) Otherwise the Supplemental Distribution Amount will equal zero.

The Index Return Percentage is:

\[
\text{Ending Value} - \text{Starting Value} \\
\text{Starting Value}
\]

The Starting Value is 8076.29.

Holders of the Certificates will have the right to exchange, at any time beginning on the date on which the certificates are issued and ending on the date that is one business day prior to the valuation date, each $10 principal amount of the certificates that they then hold for one equity index participation security with a $10 face amount and one equity index warrant with a $10 notional amount;

- at maturity, each security will pay an amount equal to $10 plus a security return amount, which could be positive, zero or negative; and
• at maturity, if the ending value of the Dow Jones Industrial Average is greater than or equal to the starting value, each warrant will pay zero. If the ending value of the Dow Jones Industrial Average is less than the starting value, the warrants will pay a positive amount equal to the product of (a) $10 and (b) the percentage decrease in the value of the Dow Jones Industrial Average.

It is expected that the market value of the Securities or Notes will depend substantially on the value of the Dow Jones Industrial Average and be affected by a number of other interrelated factors including, among other things; the general level of interest rates, the volatility of the Dow Jones Industrial Average, events involving the companies included in the Dow Jones Industrial Average, time premium or discount, hedging activities, the dividend yields of the stocks comprising the Dow Jones Industrial Average, and the credit ratings of the Issuer.

**Exchange Rules Applicable to Trading in the Shares**

The Shares are considered equity securities, thus rendering trading in the Shares subject to the Exchange's existing rules governing the trading of equity securities.

**Trading Hours**

Trading in the Shares on ISE is on a UTP basis and is subject to ISE equity trading rules. The Shares will trade from 8:00 a.m. until 8:00 p.m. Eastern Time. Equity EAMs trading the Shares during the Extended Market Sessions are exposed to the risk of the lack of the calculation or dissemination of underlying index value or intraday indicative value ("IIV"). For certain derivative securities products, an updated underlying index value or IIV may not be calculated or publicly disseminated in the Extended Market hours. Since the underlying index value and IIV are not calculated or widely disseminated during Extended Market hours, an investor who is unable to calculate implied values for certain derivative securities products during Extended Market hours may be at a disadvantage to market professionals.

**Trading Halts**

ISE will halt trading in the Shares in accordance with ISE Rule 2101(a)(2)(iii). The grounds for a halt under this Rule include a halt by the primary market because it stops trading the Shares and/or a halt because dissemination of the IIV or applicable currency spot price has ceased, or a halt for other regulatory reasons. In addition, ISE will stop trading the Shares if the primary market de-lists the Shares.

**Delivery of a Prospectus**

Pursuant to federal securities laws, investors purchasing Shares must receive a prospectus prior to or concurrently with the confirmation of a transaction. Investors purchasing Shares directly from the Fund (by delivery of the Deposit Amount) must also receive a prospectus.

Prospectuses may be obtained through the Distributor or on the Fund’s website. The Prospectus does not contain all of the information set forth in the registration statement (including the exhibits to the registration statement), parts of which have been omitted in
accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to the Trust’s registration statement.

This Regulatory Information Circular is not a statutory Prospectus. Equity EAMs should consult the Trust’s Registration Statement, SAI, Prospectus and the Fund’s website for relevant information.
