

# NASDAQ OMX CERTIFIED PARTNERS PROGRAM

## HELPING YOUR FIRM MAKE INFORMED SERVICE BUREAU DECISIONS

In order to best help our market participants choose the right solution for their business, NASDAQ OMX® features select service bureaus and front-end providers in our Certified Partners Program. This program was designed to highlight the providers that offer the highest levels of NASDAQ OMX market functionality, access and enhancements in a timely fashion.

NASDAQ OMX evaluates service bureaus and ranks them according to service level: **Platinum**, **Silver** or **Bronze**.

## SERVICE BUREAU PARTNER REVIEWS AND RE-RANKINGS

In order for the Certified Partners Program to benefit trading firms on a long-term basis, service bureaus will need to maintain their certification levels when NASDAQ OMX implements significant enhancements. NASDAQ OMX conducts reviews of our Partners' software frequently, and as required by large NASDAQ OMX initiatives.

## FIND THE RIGHT PROVIDER

The Certified Partners Program for NASDAQ OMX service bureaus and front-end providers was designed to assist our market participants in making the best decisions for their firms. There are many solutions on the Street, and connecting to the right service bureau is critical for the success of your business.

## NASDAQ OMX WOULD LIKE TO THANK ALL OF OUR CERTIFIED PARTNERS
