

Information Circular: Schwab Strategic Trust

To: Head Traders, Technical Contacts, Compliance Officers, Heads of ETF Trading, Structured Products Traders

From: PHLX Listing Qualifications Department

Exchange-Traded Fund	Symbol	CUSIP #
Schwab U.S. TIPS ETF	SCHP	808524870
Schwab Short-Term U.S. Treasury ETF	SCHO	808524862
Schwab Intermediate-Term U.S. Treasury ETF	SCHR	808524854

Background Information on the Funds

The Schwab Strategic Trust (the "Trust") is a management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"). The Trust consists of several exchange-traded funds (each, a "Fund" and collectively, the "Funds"). This circular refers only to the Funds listed above. The shares of each of the Funds listed above are referred to herein as "Shares." Charles Schwab Investment Management, Inc. ("CSIM" or the "Adviser") is the investment adviser for the Funds.

SCHP seeks to track as closely as possible, before fees and expenses, the total return of the Barclays Capital U.S. Treasury Inflation Protected Securities (TIPS) Index (Series L) (the "TIPS Index"). To pursue its goal, the fund generally invests in securities that are included in the TIPS Index. The TIPS Index includes all publicly-issued U.S. Treasury inflation-protected securities (TIPS) that have at least one year remaining to maturity, are rated investment grade and have \$250 million or more of outstanding face value. The TIPS in the TIPS Index must be denominated in U.S. dollars and must be fixed-rate and non-convertible. The TIPS Index is market capitalization weighted and the TIPS in the TIPS Index are updated on the last business day of each month. As of June 30, 2010, there were 29 TIPS in the TIPS Index. TIPS are publicly issued, dollar denominated U.S. Government securities issued by the U.S. Treasury that have principal and interest payments linked to an official inflation measure (as measured by the Consumer Price Index, or CPI) and their payments are supported by the full faith and credit of the United States.

SCHO seeks to track as closely as possible, before fees and expenses, the total return of the Barclays Capital U.S. 1-3 Year Treasury Bond Index (the "Short-Term Index"). To pursue its goal, the fund generally invests in securities that are included in the Short-Term Index. The Short-Term Index includes all publicly-issued U.S. Treasury securities that have a remaining maturity of greater than or equal to one year and less than three years, are rated investment grade, and have \$250 million or

more of outstanding face value. The securities in the Short-Term Index must be denominated in U.S. dollars and must be fixed-rate and non-convertible. The Short-Term Index excludes state and local government series bonds and coupon issues that have been stripped from bonds. The Short-Term Index is market capitalization weighted and the securities in the index are updated on the last business day of each month. As of June 30, 2010 there were 61 issues in the Short-Term Index.

SCHR seeks to track as closely as possible, before fees and expenses, the price and yield performance of the Barclays Capital U.S. 3-10 Year Treasury Bond Index (the "Intermediate Index"). To pursue its goal, the fund generally invests in securities that are included in the Intermediate Index. The Intermediate Index includes all publicly-issued U.S. Treasury securities that have a remaining maturity of greater than or equal to three years and less than ten years, are rated investment grade, and have \$250 million or more of outstanding face value. The securities in the Intermediate Index must be denominated in U.S. dollars and must be fixed-rate and non-convertible. The Intermediate Index excludes state and local government series bonds and coupon issues that have been stripped from bonds. The Intermediate Index is market capitalization weighted and the securities in the index are updated on the last business day of each month. As of June 30, 2010, there were 82 issues in the Intermediate Index.

It is each Fund's policy that under normal circumstances they will invest at least 90% of their net assets in securities included in the corresponding index. The Funds will generally give the same weight to a given security as the index does. However, when the Adviser believes it is appropriate to do so, such as to avoid purchasing odd-lots (i.e., purchasing less than the usual number of shares traded for a security), for tax considerations, or to address liquidity considerations with respect to a security, the Adviser may cause a Fund's weighting of a security to be more or less than the index's weighting of the security. A Fund may sell securities that are represented in the index in anticipation of their removal from the index.

Under normal circumstances, a Fund may invest up to 10% of its net assets in securities not included in its underlying index. The principal types of these investments include those that the Adviser believes will help the Fund track the index, such as investments in (a) securities that are not represented in the index but the Adviser anticipates will be added to or removed from the index; (b) securities issued by the U.S. government, its agencies or instrumentalities, including obligations that are not guaranteed by the U.S. Treasury, and obligations that are issued by private issuers that are guaranteed as to principal or interest by the U.S. government, its agencies or instrumentalities, and (c) investment companies, including money market funds. A Fund may also invest in cash and cash equivalents, enter into repurchase agreements, and may lend its securities to minimize the difference in performance that naturally exists between an index fund and its corresponding index.

The Adviser may seek to track the price and yield performance of the index by using statistical sampling techniques. These techniques involve investing in a limited number of index securities that, when taken together, are expected to perform similarly to the index as a whole. These techniques are based on a variety of factors, including industry weightings, market capitalization, yield and other performance attributes, maturity, duration, credit ratings, liquidity, tax considerations, risk factors and other characteristics. A Fund generally expects that its portfolio will hold less than the total number of securities in the index, but reserves the right to hold as

many securities as it believes necessary to achieve the Fund's investment objective. A Fund generally expects that its yield and maturity will be similar to those of the index. In addition, the fund generally expects that its weighted average effective duration will closely correspond to the weighted average effective duration of the underlying index.

The Adviser seeks to achieve, over time, a correlation between each Fund's performance and that of its index, before fees and expenses, of 95% or better. However, there can be no guarantee that a Fund will achieve a high degree of correlation with its index. A number of factors may affect a Fund's ability to achieve a high correlation with its index, including the degree to which the Fund utilizes a sampling technique. The correlation between the performance of a Fund and its index may also diverge due to transaction costs, asset valuations, timing variances, and differences between the Fund's portfolio and the index resulting from legal restrictions (such as diversification requirements) that apply to the Fund but not to the index.

For more information regarding each Fund's investment strategy, please read the prospectus for the Funds.

As described more fully in the Trust's prospectus and Statement of Additional Information ("SAI"), the Funds issue and redeem Shares at net asset value ("NAV") only in large blocks of 200,000 Shares for SCHP and 100,000 Shares for SCHO and SCHR (each block of Shares called a "Creation Unit") or multiples thereof. As a practical matter, only broker-dealers or large institutional investors with creation and redemption agreements (called Authorized Participants) can purchase or redeem these Creation Units. Except when aggregated in Creation Units, the Shares may not be redeemed with the Funds.

Dividends from net investment income, if any, are generally declared and paid monthly for the funds. Distributions of net realized capital gains, if any, generally are declared and paid once a year, although the funds may do so more frequently as determined by the Board of Trustees.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for each Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or "ET") of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The registration statement for the Funds describes the various fees and expenses for the Funds' Shares. For a more complete description of the Funds and the underlying indexes, visit the Funds' website at www.schwab.com.

Purchases and Redemptions in Creation Unit Size

PHLX members and member organizations are hereby informed that procedures for purchases and redemptions of Shares in Creation Unit Size are described in the Trust's prospectus and SAI, and that Shares are not individually redeemable but are redeemable only in Creation Unit Size aggregations or multiples thereof.

Principal Risks

Interested persons are referred to the discussion in the prospectus for the Funds of the principal risks of an investment in the Funds. These include tracking error risk (factors causing a Fund's performance to not match the performance of its underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, issuer-specific risk, management risk, credit risk, interest rate risk, liquidity risk and inflation protected security risk.

Exchange Rules Applicable to Trading in the Shares

Trading of the Shares on PHLX's PSX system is on a UTP basis and is subject to PHLX rules.

Trading Hours

The values of each index underlying the Shares are disseminated to data vendors every 15 seconds. The Shares will trade on PSX between 9:00 a.m. and 5:00 p.m. ET. For trading during PSX's Pre-Market and Post-Market Sessions, market participants should note that additional risks may exist with respect to trading the Funds during these sessions, when the underlying index's values, intraday indicative value, or similar value may not be disseminated or calculated.

Dissemination of Fund Data

The Consolidated Tape Association will disseminate real time trade and quote information for the Funds to Tape B.

Fund Name	Listing Market	Trading Symbol	IOPV Symbol	NAV Symbol
Schwab U.S. TIPS ETF	NYSE Arca	SCHP	SCHP.IV	SCHP.NV
Schwab Short-Term U.S. Treasury ETF	NYSE Arca	SCHO	SCHO.IV	SCHO.NV
Schwab Intermediate-Term U.S. Treasury ETF	NYSE Arca	SCHR	SCHR.IV	SCHR.NV

Suitability

Members and member organizations recommending transactions in the Shares to customers should make a determination that the recommendation is suitable for the customer, as provided by PHLX Rule 763.

PHLX members and member organizations also should review NASD Notice to Members 03-71 for guidance on trading these products. The Notice reminds broker-dealers of their obligations to: (1) conduct adequate due diligence to understand the features of the product; (2) perform a reasonable-basis suitability analysis; (3) perform customer-specific suitability analysis in connection with any recommended transactions; (4) provide a balanced disclosure of both the risks and rewards associated with the particular product, especially when selling to retail investors; (5) implement appropriate internal controls; and (6) train registered persons regarding the features, risk and suitability of these products.

Trading Halts

PHLX will halt trading in the Shares of a Fund in accordance with PHLX Rule 3100. The grounds for a halt under these rules include a halt by the primary market because the intraday indicative value of the Fund, the value of its underlying index, or a similar value are not being disseminated as required, or a halt for other regulatory reasons. In addition, PHLX will also stop trading the Shares of a Fund if the primary market de-lists the Fund.

Delivery of a Prospectus

PHLX members and member organizations should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Funds.

Prospectuses may be obtained through the Funds' website. The prospectus for the Funds does not contain all of the information set forth in the Funds' registration statement (including the exhibits to the registration statement), parts of which have been omitted in accordance with the rules and regulations of the Securities and Exchange Commission ("SEC"). For further information about the Funds, please refer to the registration statement.

In the event that the Funds rely upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the 1940 Act and in the future make available a written product description, PHLX Rule 803(o) requires that PHLX members and member organizations provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Trust for the Funds, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, PHLX members and member organizations shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by a PHLX member or member organization to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of the Shares of the Fund has been prepared by the Trust and is available from your broker. It is recommended that you obtain

and review such circular before purchasing Shares of the Fund. In addition, upon request you may obtain from your broker a prospectus for Shares of the Fund.”

A PHLX member or member organization carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to PHLX members and member organizations under this rule.

Upon request of a customer, PHLX members and member organizations also shall provide a copy of the prospectus.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The SEC has issued exemptive, interpretive or no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 (the “Act”) regarding trading in the above mentioned exchange-traded Funds.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Funds to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Funds (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Funds for redemption does not constitute a bid for or purchase of any of the Funds’ securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Customer Confirmations for Creation or Redemption of Fund Shares (SEC Rule 10b-10)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities

tendered to a Fund for purposes of purchasing Creation Unit Aggregations ("Deposit Securities") or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder ("Redemption Securities"). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemptions is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c);
- 3) Except for the identity, number and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

SEC Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of a Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of a Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchased; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

Section 11(d)(1); SEC Rules 11d1-1 and 11d1-2

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to

broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in Shares of the Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the fund complex any payment, compensation or other economic incentive to promote or sell the Shares of a Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of a Fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

SEC Rule 15c1-5 and 15c1-6

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)
