UBS AG FI Enhanced Large Cap Growth ETNs                      FBGX      902677780

### Information on the Notes

UBS AG ("UBS" or the "Issuer") has issued FI Enhanced Large Cap Growth Exchange Traded Notes ("ETNs" or "Notes" or "Securities") that are linked to the performance of the Russell 1000 Growth Index Total Return (the "Index"). The ETNs do not guarantee any return of principal. Investors should be willing to forgo interest payments and, if the Index declines, be willing to lose up to 100% of their investment.

The Securities are senior unsecured debt securities issued by UBS AG. The Securities are designed to provide a two times leveraged long exposure to the performance of the Index compounded on a quarterly basis, reduced by the Accrued Fees (as defined in the prospectus). Because the Securities are two times leveraged with respect to the Index, the Securities may benefit from two times any positive, but will be exposed to two times any negative, quarterly compounded performance of the Index. The return on the Securities, however, can, and most likely will, differ significantly from two times the return on a direct investment in the Index. The Securities are very sensitive to changes in the performance of the Index, and returns on the Securities may be negatively impacted in complex ways by volatility of the Index on a quarterly basis.

The Securities should be purchased only by knowledgeable investors who understand the potential consequences of investing in the Index and of seeking quarterly compounding leveraged investment results. Investors should actively and frequently monitor their investment in the Securities.

You will receive a cash payment at maturity, acceleration or upon exercise by UBS of its call right based on the quarterly compounded leveraged performance of the Index less the Accrued Fees, calculated as described in the accompanying product supplement. Payments upon early redemption are calculated in the same manner except that a Redemption Fee (as defined in accompanying product supplement) will be deducted. You will not receive any interest payments or coupon payments during the term of the Securities. In particular, you will not receive any periodic payments based on dividends on the Index Constituent Securities (as defined in the accompanying product supplement); however, because the

Securities are linked to a "total return" index, dividends on the Index Constituent Securities are reflected in the level of the Index.

Payment at maturity, early redemption, acceleration or upon exercise by UBS of its call right will be subject to the creditworthiness of UBS. In addition, the actual and perceived creditworthiness of UBS will affect the interim market value, if any, of the Securities. Investing in the Securities involves significant risks. You may lose some or all of your initial investment at maturity, early redemption, acceleration or upon exercise by UBS of its call right if the quarterly compounded leveraged return of the Index is not sufficient to offset the negative effect of the Accrued Fees and the Redemption Fee and/or the Loss Rebalancing Fee, if applicable.

Please see the prospectus for the Notes for more details regarding the calculations and details regarding the Index.

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yield of the stocks comprising the Index, and the credit ratings of the Issuer.

Trading in the Notes on NASDAQ is on a UTP basis and is subject to NASDAQ equity trading rules. Trading in the Notes on BX is on a UTP basis and is subject to BX equity trading rules. Trading in the Notes on PHLX's PSX system is on a UTP basis and is subject to PHLX rules. The Notes will trade on NASDAQ from 7:00 a.m. until 8:00 p.m. Eastern Time. The Notes will trade on BX from 8:00 a.m. until 7:00 p.m. Eastern Time. The Notes will trade on PSX from 9:00 a.m. until 5:00 p.m. Eastern Time. For trading during each market's pre-market and post-market sessions, market participants should note that additional risks may exist with respect to trading the Notes during these sessions, when the underlying index's value or similar value may not be disseminated.

NASDAQ will halt trading in the Notes in accordance with NASDAQ Rule 4120. BX will halt trading in the Notes in accordance with BX Equity Rule 4120. PHLX will halt trading in the Notes in accordance with PHLX Rule 3100. The grounds for a halt under each of these rules include a halt by the primary market because the value of the underlying index or a similar value is not being disseminated as required, or a halt for other regulatory reasons. In addition, NASDAQ, BX and PHLX will also stop trading the Notes if the primary market delists the Notes.

Trading of the Notes on NASDAQ is subject to the provisions of NASDAQ Rule 2310. Trading of the Notes on BX is subject to the provisions of BX Rule 2310. Members recommending transactions in the Notes to customers should make a determination that the securities are suitable for the customer. In addition, members must possess sufficient information to satisfy the "know your customer" obligation that is embedded in the NASDAQ Conduct Rules and BX Conduct Rules.

Members and member organizations recommending transactions in the Notes to customers should make a determination that the recommendation is suitable for the customer, as provided by PHLX Rule 763.

Nasdaq members, BX members and PHLX members and member organizations should also review NASD Notice to Members 03-71 for guidance on trading these products. The Notice

reminds members of their obligations to: (1) conduct adequate due diligence to understand the features of the product; (2) perform a reasonable-basis suitability analysis; (3) perform customer-specific suitability analysis in connection with any recommended transactions; (4) provide a balanced disclosure of both the risks and rewards associated with the particular product, especially when selling to retail investors; (5) implement appropriate internal controls; and (6) train registered persons regarding the features, risk and suitability of these products.

**This Information Circular is not a statutory prospectus. NASDAQ members, BX members and PHLX members and member organizations should consult the registration statement or prospectus for the Notes for additional information.**
