### BACKGROUND INFORMATION ON THE FUND

The Amplify ETF Trust (the “Trust”) is a management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”), consisting of several investment portfolios. This circular relates only to the Amplify YieldShares Oil Hedged MLP Income ETF (the “Fund”). Amplify Investments LLC (the “Adviser”) serves as the investment adviser to the Fund. The shares of the Fund are referred to herein as “Shares.”

The Fund seeks to provide a high level of current income as its primary investment objective and to provide returns from energy master limited partnerships with a view toward reduced volatility as its secondary investment objective.

The Fund is an actively managed exchange-traded fund that invests in equity securities of energy master limited partnerships (“MLPs”) and selectively hedges these positions to limit the correlation of its performance to the price of West Texas Intermediate Crude Oil (“WTI Crude Oil”). WTI Crude Oil, also known as Texas light sweet, is a grade of crude oil used as a benchmark in oil futures contracts pricing. The Fund uses a benchmark, the Oil Hedged MLP Index (the “Benchmark”), which is developed, maintained and sponsored by ETP Ventures LLC (“ETP Ventures”). The Fund seeks to exceed the performance of the Benchmark by actively selecting investments for the Fund from the underlying components of the Benchmark. The Fund is not an index tracking exchange-traded fund and is not required to invest in all of the components of the Benchmark. However, the Fund will generally seek to hold similar instruments to those included in the Benchmark with investments in MLPs and short exposure oil futures contracts included in the Benchmark. There can be no assurance that the Fund’s performance will exceed the Benchmark at any time.

Under normal circumstances, the Fund will invest at least 80% of its total assets in equity securities of MLPs focused on one or more of following businesses: oil & gas production; integrated oil; oil refining/marketing; oilfield services/equipment; and oil & gas pipelines. In general, MLPs are publicly traded partnerships engaged in the transportation, storage and processing of minerals and natural

resources. By confining their operations to these specific activities, their interests, or units, are able to trade on public securities exchanges exactly like the shares of a corporation, without entity level taxation.

Amplify Investments LLC (the “Adviser”) is the investment adviser to the Fund. Penserra Capital Management LLC (“Penserra” or the “Sub-Adviser”) serves as investment sub-adviser to the Fund. Penserra has responsibility for managing the Fund’s investment program in pursuit of its investment objectives. The Adviser has overall responsibility for overseeing the investment of the Fund’s assets, managing the Fund’s business affairs and providing certain clerical, bookkeeping and other administrative services for the Trust.

The Benchmark reflects the performance of long positions in MLPs and a short exposure in WTI Crude Oil futures. To be “long” means to hold or be exposed to a security or instrument with the expectation that its value will increase over time. To be “short” means to sell or be exposed to a security or instrument with the expectation that it will fall in value. The Fund believes that MLPs have moved in the same direction as the price of WTI Crude Oil and that significant declines in the price of WTI Crude Oil can directly impact the price of the MLPs’ securities even though MLP earnings may have little exposure to the prices of WTI Crude Oil in the short term. The Benchmark seeks to reduce the volatility of maintaining its long positions in MLPs by strategically shorting WTI Crude Oil futures by up to 100% of the market value of the Fund’s portfolio (the “Oil Hedging Strategy”). Both constant and variable hedging elements are designed to provide market-neutral exposure to the MLPs in the Fund’s portfolio and are set to predetermined roll schedules for nearest and next-nearest futures contracts. The Benchmark maintains a continuous short on WTI Crude Oil futures equivalent on 40% of the net notional value of the long MLP holdings. A variable hedge element of 0% to 60% of the net notional value of the long MLP holdings is based upon a proprietary algorithmic methodology developed by ETP Ventures.

MLPs that are eligible for the Benchmark must be based in North America and focus on one or more of following businesses: oil & gas production; integrated oil; oil refining/marketing; oilfield services/equipment; and oil & gas pipelines. Such MLPs must each have a market capitalization of at least \$1 billion and, over the previous three months, an average daily traded value of at least \$10 million. From this universe, ETP Ventures then ranks the remaining MLPs based on 12-month dividend yield forecasts. The resulting top twenty MLPs form the long position of the Benchmark, which is equally weighted and reconstituted on a quarterly basis.

The Sub-Adviser will seek to manage allocations or weightings among the Fund’s investments to exceed the performance of the Benchmark. With respect to the Fund’s MLP positions, the Sub-Adviser may own different MLPs or hold MLPs in different weightings than those in the Benchmark. With respect to the Fund’s short WTI Crude Oil positions, the Sub-Adviser may own different WTI Crude Oil futures contracts durations or hold contracts in different weightings than those in the Benchmark. In addition, the Fund may invest in varying types of instruments that provide a short exposure to WTI Crude Oil, in addition to short positions in WTI Crude Oil futures contracts, including commodity swaps, exchange-traded funds, exchange-traded notes and other pooled investment vehicles that are listed on a U.S. securities exchange and that provide short exposure to WTI Crude Oil.

The Fund may have a position in cash or cash equivalents that is not prescribed in the Benchmark, in order to cover its short exposures to WTI Crude Oil futures. The Fund may borrow from a commercial bank, as permitted by the Investment Company Act of 1940, as amended (the “1940 Act”). The Fund intends to utilize borrowings to cover its margin and collateral requirements related to the Fund’s short exposures to WTI Crude Oil future contracts under the Oil Hedging Strategy. Although the amount of borrowing will vary from time to time, the amount of leveraging from borrowings is not expected to exceed 10% of the Fund’s Managed Assets.

Please read the Fund’s prospectus for more information regarding its investment objectives.

As described more fully in the Trust’s prospectus and Statement of Additional Information, the Fund will issue and redeem Shares on a continuous basis at their net asset value (“NAV”) only in large blocks of 50,000 Shares (each, a “Creation Unit”). Creation Units will be issued and redeemed principally in-kind for securities included in the underlying index. Except when aggregated in Creation Units, the Shares may not be redeemed with the Fund.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for the Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or “ET”) of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The registration statement for the Fund describes the various fees and expenses for the Fund’s Shares. For a more complete description of the Fund and the underlying Index, visit the Fund’s website at [www.amplifyetfs.com](http://www.amplifyetfs.com)

### **EXEMPTIVE, INTERPRETIVE AND NO-ACTION RELIEF UNDER FEDERAL SECURITIES REGULATIONS**

The SEC has issued exemptive, interpretive or no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 (the "Act") regarding trading in the above mentioned exchange-traded Fund.

### **REGULATION M EXEMPTIONS**

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund's securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

### **CUSTOMER CONFIRMATIONS FOR CREATION OR REDEMPTION OF FUND SHARES (SEC RULE 10B-10)**

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations ("Deposit Securities") or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder ("Redemption Securities"). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemptions is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;

- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c);
- 3) Except for the identity, number and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

#### **SEC RULE 14E-5**

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchased; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

#### **SECTION 11(D)(1); SEC RULES 11D1-1 AND 11D1-2**

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in Shares of the Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the fund complex any payment, compensation or other economic incentive to promote or sell the Shares of the Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of the Fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

## SEC RULE 15C1-5 AND 15C1-6

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)
