

Memo No.# 0980-07

Bernard Donnelly
Vice President
Quality Assurance/Quality Control

April 25, 2007

To: All Equity Option Members and Member Firms
Subject: Discontinuation of Equity Options Legacy Network Connections

Effective **June 29, 2007** the Philadelphia Stock Exchange will no longer support Equity Options legacy network connections such as Bi-synch and/or X.25. Member Firms who connect into the exchange over these types of network lines are strongly encouraged to contact the Technical Account Management Group at 215-496-5310 or email gatamg@phlx.com to discuss converting their existing legacy connections to FIX or CMS via TCP/IP sooner rather than later.

If you have any questions regarding this memorandum you may contact Annette Ward at 215-496-5550 or myself at 215-496-5056.
